SUMMARY

Currently navigating my fourth semester in the Bachelor of Computer Applications program at Jagannath Community College, New Delhi, I am dedicated to harnessing the power of technology through coding and development. With a solid foundation in various programming languages and web development technologies, I am keen to dive into practical experiences that challenge and refine my skills. I am enthusiastic about contributing to innovative projects and am committed to continuous learning and growth in the tech landscape. My academic journey is complemented by hands-on projects and certifications, reflecting my drive to excel in the ever-evolving field of technology.

SKILLS

- C, C++, Python & Java.
- Database Management Systems in MySQL, MariaDB and MongoDB.
- HTML, CSS, JavaScript, PHP.
- Communication skills and teamwork skills.
- Creative thinking, time management and adaptability skills.
- Familiarity with basic data structures and algorithms.

EDUCATION

Bachelor of Computer Applications (BCA) Jagannath Community College, New Delhi.

Expected Graduation: 2025.

Higher Secondary Education

Higher Secondary Certificate (12th Grade) in Science(medical).

Year – 2022.

CERTIFICATIONS

The Joy of Computing Python By Swayam

Joy of Computing Python course offered by Swayam, which covered fundamental concepts of computer science and programming. This course provided a solid foundation in coding, problem-solving, and algorithmic thinking.

O Level

- Web Designing and Publishing
- Information Technology Tools and Network Basis.
- Programming and Problem Solving Through Python
- Internet of Things and its application

PROJECTS

Salary Management System

Created a C++ based salary management system as part of a coursework project which includes alternatives for adding, deleting, displaying and updating salary, as well as adding basic details of employees.

Trip booking Website

Created a fully functional website using HTML, CSS, JavaScript, PHP and MySQL for a travel domain. The website includes features such as trip booking, user login and logout functionalities, ensuring a seamless user experience for tourists.

OTHER

Sonic 2023 Seminar

I attended a seminar on "Innovation in Data Analytics," where I learned about the latest trends in machine learning, big data, and data visualization. This experience enhanced my analytical skills and deepened my understanding of how data analytics drives innovation across industries.
